

## BENT COLLECTION

### **Bent collection**

This chair has a slender character with a wink to fifties and is produced in the Netherlands. Created by subtly bending aluminium and components attached visibly with screw connections:

Bent is powerful by its simplicity.

The collection includes a dining chair, lounge chair and a table. Available in the colours black, white, mint and blush.

The chairs can be completed with a removable Bent skin, a 100% wool felt back- and seatpad for added comfort.

---

### **Year of design**

- 2015
